A strong EF1 tornado first touched down west of Highway 29 and to the south of Molino Road. The tornado then moved northeast just to the south of Molino Road to near Old Molino and then crossed the Escambia River and dissipated just east of the river. The tornado damaged approximately 60 structures, including homes, storage buildings and businesses sustained varying degrees of damage ranging from minor to heavy. Forty of the structures were uninhabitable. No injuries were reported.

A long lived supercell thunderstorm moved across northwest Florida producing two tornadoes.
